EDUCATION

University of Rajasthan

Bachelor of Commerce, honours (abt)

Jaipur

Aug. 2022 – May 2025

EXPERIENCE

Mern stack developer Intern

Fullstack Learning

February 2026 – April 2026

- Developed responsive full-stack web applications using React, Node.js, Express.js, and MongoDB
- Built REST APIs, authentication systems, and interactive UI components
- Integrated frontend with backend services and managed database operations
- Collaborated on feature development, debugging, and deployment workflows

FREELANCE PROJECT

Abacify | Next.js, Javascript, Node.js, Express.js, MongoDB

View

- Developed a full-stack web application with responsive and interactive user interfaces
- Integrated WhatsApp messaging functionality for real-time communication and user engagement
- Built REST APIs and managed database operations using MongoDB and Express.js
- Optimized frontend performance and implemented modern UI components using Next.js

PROJECTS

Fullstacklearning | Javascript, React, MongoDB, Node.js, Express.js

View

- Developed a full-stack learning platform with role-based Student and Admin dashboards
- Implemented user authentication, protected routes, and interactive quiz functionality
- Built REST APIs and integrated MongoDB for managing users, courses, and quiz data
- Designed responsive and user-friendly interfaces using React and modern UI practices

Sosal | React.js, Javascript, Node.js, Express.js, MongoDB

View

- Developed a full-stack social media platform inspired by Instagram with posts, likes, comments, and follow features
- Implemented secure authentication and integrated real-time chat functionality using Socket.IO
- Built responsive and modern user interfaces with efficient REST API integration
- Focused on scalable architecture, optimized performance, and seamless frontend-backend communication

Pokemon Battle | React.js, Javascript, Node.js, Express.js, MongoDB

View

- Developed an interactive Pokemon battle game with dynamic gameplay and real-time battle simulations
- Implemented game logic to compare Pokemon stats, abilities, and determine battle outcomes efficiently
- Designed responsive and engaging UI components to display Pokemon details, animations, and battle results
- Managed complex application state and user interactions to deliver a smooth and interactive gaming experience

TECHNICAL SKILLS

Languages: HTML/CSS, JavaScript, Typescript, SQL

Frameworks: Next.js, Express.js, Bootstrap, ReactNative

Developer Tools: Git/Github, Figma, VS Code, Visual Studio, Expo

Libraries: React, Tailwind css

Databases: MongoDB, MySQL
